

## April 2017 additions to the LuxHedge Alternative UCITS fund database

During April, we added 20 new Alternative UCITS funds to our LuxHedge database. Following the trend of the last two quarters, we noticed a big inflow of newly launched funds with a Macro focus. Contrary to the past months, there were only a limited amount of new funds with a Long/Short or Equity Market neutral focus.

Below an overview of the recent fund launches and additions.
